

WIKIAlps transnational working tables

Let's support a balanced and shared territorial development in the Alpine Space!

Can your region's spatial
policy make profit from
Alpine Space project results?

Do you want to make use of
project results from the Alpine
Space Programme?

Do you want to contribute directly
to a sustainable territorial
development in the Alpine Space?

Do you want to share your
experiences and learn
from your international
counterparts?

... if so, we would be delighted to welcome you to the
transnational working tables organised by the WIKIAlps project.

Please save these dates:

Innsbruck (AT): Tuesday, 06 May 2014

For participants from Austria, Germany, Eastern Italy and Slovenia

Courmayeur (IT): Wednesday, 28 May 2014

For participants from France, Western Italy and Switzerland

Get inspired!

During the working tables, we will work together on the following topics:

Which are your experiences with the Alpine Space Programme and its projects? **What are your needs** with regard to them? Which are the positive and negative experiences with sustainable spatial development in your region? WIKIAlps – the project's wiki reorganises the outcomes of selected EU projects on spatial development. **We will show you, how our wiki can help you in your daily work.**

What would you improve or change in the wiki for making it an even more suitable working tool? **You are invited to make use of the wiki** and contribute to its development.

Please do not hesitate to contact us:
